August 2020

IT ALL STARTS WITH LIGHT

Three different quotations were received for a stunning office. An interior designer stuck to a drawing table, finally realized the perfect colour to put on the walls. Endless discussions were held about the right desks and chairs. The interior of an office has to be on point, its design determines the atmosphere and appearance. It's part of your brand."

But what to do with the lighting? How do you incorporate this into your design, to contribute to the working atmosphere and the wellbeing of the employees? Have you ever really thought about this? At Internova we have! Our lighting professionals are always available to support and advise you.

THE RIGHT LIGHTING

In a utility environment good lighting is not only important to set the perfect atmosphere, but also has to be highly functional. The right lighting contributes to the wellbeing of the employees and creates a pleasant environment to work in. Our lighting designers can build beautiful 3D lighting concepts according to the NEN standards, for that perfect office or public environment. In which appearance and functionality come together.

GIRO SERIES

A series of recessed LED Downlights in 3 outer-diameters: 180mm, 206mm and 226mm. The perfect solution for any utility project. All types are available in a SLM and DLM version.

HUMAN CENTRIC LIGHTING

Human Centric Lighting is a setting of the light colour and intensity that influences the human wellbeing. It promotes the concentration, creativity and performance of employees. This is not only due to activating, but also calming light. Activating or relaxing atmospheres can be created when the right light colour and intensity are applied. By using Internova luminaires in a TW version, a Human Centric Lighting system can be set up.

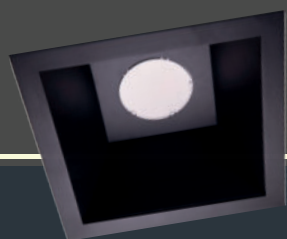

NLO PANEL

Featuring New Louvre Optic technology. The NLO LED panel offers the ideal combination of stylish design and optimal performance for both task and general lighting. Low glare, UGR <13.

SINCE 1996

Light has the power to transform a space. It is not without reason that we believe that everything starts with the right lighting; It all starts with light! Thanks to our knowledge and expertise in the lighting industry, we have been part of the success of various major hospitality and retail formulas for the past 24 years. This in collaboration with our lighting partners.

SNELLO

Tubular surface mounted LED luminaire. Perfect to be used for general lighting in utility projects when there is no possibility to use recessed lighting.
