It all starts with light

August 2020

IT ALL STARTS WITH LIGHT

Three different quotations were received for a stunning bar. An interior designer stuck to a drawing table, finally realized the perfect colour to put on the walls. Endless discussions were held about the right chairs. The interior of a restaurant, bar or hotel has to be on point. The design of the establishment determines the atmosphere and appearance, it's part of your brand.

But what to do with the lighting? How do you incorporate this into your design, to contribute to perception and atmosphere? Have you ever really thought about this? At Internova we have! Our lighting professionals are always available to support and advise you.

SETTING THE PERFECT ATMOSPHERE

In restaurants and bars good lighting is not only important to set the perfect atmosphere, but also has to be functional. By using the right combination of functional and decorative lighting a space can be brought to life, Internova is always there to assist you in this. Our lighting designers can build beautiful 3D lighting concepts for that perfect restaurant and atmospheric bar, in which appearance and function come together.

Compact and stylishly designed low glare 3-phase tracklight. Equipped with a unique in-track driver for the most compact solution possible.

FLEXIBLE SETUP

As an expert in lighting for the restaurant and bar industry, Internova realized the lighting design for a large number of projects. An important point of attention is always the flexibility of the lighting. When the layout of the interior changes, the lighting must always be easy to adjust. That's why the flexible tracklights made by internova are perfect to be used in any hospitality setting.

Did you know that the decorative lighting can also be powered from our Powergear® tracksystem? Easy and flexible!

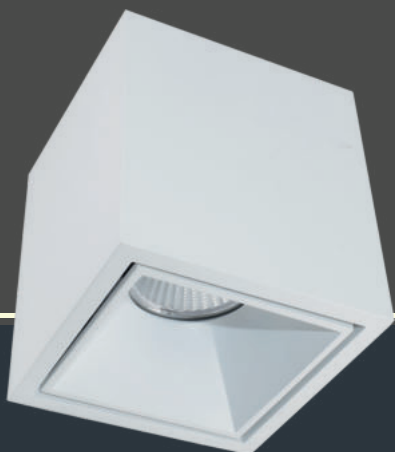

BARISTA

3-phase tracklight with a timeless look. Supplied including dimmable driver and low glare LED light source. Also available in a Dim-to-Warm Version.
